

### **III. COUNCIL MEETINGS**

#### **A. Meeting dates, Public notices, Newspapers**

The organizational meeting for the Council was held on September 24, 1991 and the Council continues to meet on a regular basis. A public notice for each meeting is placed in the newspaper with the highest circulation within each county. Below is an example of the Public Notice. No information has been received in response of the notices.

#### **PUBLIC NOTICE**

##### **Water Management Council Meeting**

The Kentucky River Area Water Management Council will be meeting Wednesday, May 23, 2001 at 1:00 PM in the board room of the Kentucky River Area Development District (KRADD) in Hazard, KY.

In 1990, the Kentucky Legislature mandated county-level, long-range water supply planning. Regulatory requirements for water supply planning are codified in regulation 401 KAR 4:220. Each county in the Commonwealth of Kentucky is required to submit a Long-Range Water Supply Plan that will serve as a sound planning basis for provision of adequate public water supplies. These plans are now due to be updated. The Water Management Council is responsible for the approval of these plans for the eight counties in the KRADD area, as well as additional planning that is required through the passage of Senate Bill 409 during the 2000 legislative

The purpose of this meeting will be to prioritize projects to be submitted for funding from the 2020 Water Service Account created by Senate Bill 409.

Any public comments may be addressed to KRADD, 917 Perry Park Road, Hazard, Kentucky 41701. Deadline for comments is Tuesday, May 22, 2001 at 4:30 PM.
